Amendment A

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

In response to the Office Letter mailed June 22, 2007, please amend the above application as follows:

Specification:

Page 3, last paragraph (extends to page 4), replace with the following new paragraph.

--As the benefits and economics of compost tea became apparent more efficient Compost tea making devices were developed. The Soil Soup Bio-Blender@ www.soilsoup.com is designed to stir and aerate a water nutrient solution producing compost tea. In this method compost is contained in a felt bag. The felt bag is then partially submerged into a tank containing an aerated water nutrient solution.
